

CUSTOMER CARE TIPS FOR YOUR NEW

AFTER INSTALLATION

SPECIAL NOTE FOR SLIDING REAR WINDOW INSTALLATIONS: IF YOUR VEHICLE IS EQUIPPED WITH A SLIDING REAR CAB WINDOW, IT IS RECOMMENDED THAT YOU WAIT ONE (1) WEEK BEFORE SLIDING THE WINDOW. THIS WILL INSURE THAT THE PRESSURE-SENSITIVE ADHESIVE IS SECURELY ATTACHED TO THE GLASS.

CAR WASHING -

AVOID WASHING YOUR GLASSCAPES WINDOW GRAPHIC FOR THE FIRST WEEK AFTER IT IS INSTALLED. AFTER THIS TIME YOU CAN SAFELY TAKE YOUR VEHICLE THRU ANY COMMERCIAL BRUSH-TYPE CAR WASH.

HIGH PRESSURE POWER WASHING -

IF YOU ARE USING A DO-IT YOURSELF CAR WASH, DO NOT HOLD THE WASH WAND CLOSER THAN TEN (10") INCHES TO THE GLASSCAPE SURFACE. USE THE SAME CARE THAT YOU WOULD ANY PINSTRIPING OR VINYL GRAPHIC ON YOUR VEHICLE AND YOU SHOULD ENJOY MANY YEARS OF USE FROM YOUR GLASSCAPES IMAGE.

NOTE - DO NOT USE ABRASIVE CLEANERS ON THE IMAGE. REAR WINDOW MOUNTED WIPER BLADES WILL CAUSE PREMATURE WEAR OF THE IMAGE.

WINTER USE -

AVOID USING ICE SCRAPERS ON THE IMAGE AS THIS MAY DAMAGE THE VINYL.

HEATED REAR WINDOWS -

HEATED REAR WINDOW SYSTEMS WILL NOT CAUSE ANY DAMAGE TO YOUR GLASSCAPE. USE OF YOUR REAR DEFROSTER WILL HELP SPEED UP THE DRYING OF YOUR GLASS DURING WET WEATHER USE.

GLASSCAPES™ © 2000 , Woodward 1 Group, Farmington, Michigan 48336
Made in U.S.A.

CAUTION! - DO NOT APPLY TO THE FOLLOWING: WINDSHIELDS, DRIVER DOOR WINDOW GLASS or PASSENGER SIDE DOOR WINDOW GLASS!!

EFFECTS OF CONDENSATION ON VISION QUALITY OF PERFORATED WINDOW FILMS: RAINFALL, SNOWFALL AND CAR WASHES CAN FILL THE SMALL PERFORATIONS AND CAUSE REDUCED VISION UNTIL DRYING OCCURS.

CONSULT YOUR LOCAL LAWS REGARDING THE APPLICATION OF WINDOW TINT TO VEHICLE GLASS.
